STOUGHTON UTILITIES RECOGNIZED FOR RELIABLE ELECTRIC SERVICE TO THE COMMUNITY

Stoughton Utilities has received national recognition for achieving exceptional electric reliability in 2024. The recognition comes from the American Public Power Association (APPA), a trade group that represents more than 2,000 not-for-profit, community-owned electric utilities.

APPA helps electric utilities track power outage and restoration data through its subscription-based eReliability Tracker service. Once per year, APPA's Reliability Team compares this data to national statistics tracked by the U.S. Energy Information Administration for all types of electric utilities.

"Year after year, data consistently demonstrate public power utilities provide highly reliable service." said APPA Director of Research and Development Paul Zummo. "The utilities recognized here are truly elite when it comes to keeping the lights on. Their communities should be proud of the hard work and dedication of their local power providers as they earn this truly deserved recognition."

Nationwide, the average public power customer has their lights out for less than half the amount of time that customers of other types of utilities do.

"We are proud to receive this recognition. It is a testament to the hard work of all our staff to ensure that we keep Stoughton powered," said Jill Weiss, Utilities Director at Stoughton Utilities.

Stoughton Utilities customers were only without power for an average of 37 minutes, excluding major events, compared to 149 minutes for all electric utilities across the United States.

###

Founded in 1886, Stoughton Utilities serves electric customers in Stoughton and the surrounding area; and wastewater and water customers in Stoughton.
